LAI, City University of Hong Kong Chao-cheng MAI, Chung Hua Institution for Economic Research Kar-yiu WONG, University of Washington Ho-Mou Wu, Chung-Hua Institution for Economic Research Shunli Yao, University of Adelaide Eden YU, Chinese University of Hong Kong
Local Organizing Committee:	Clement Y. P. WONG, City University of Hong Kong Anming ZHANG, City University of Hong Kong

This conference is a follow up of a previous conference on “Greater China and the World Economy” held at City University, July 2000. (Please visit <http://faculty.washington.edu/karyiu/> for information about the previous conference.) Theoretical and empirical papers analyzing and estimating the following impacts caused by China and Taiwan’s expected accession to the World Trade Organization (WTO) are most welcome for presentation:

- the growth and development of various sectors of mainland China, Taiwan, and Hong Kong economies;
- the economic relations among the economies of mainland, Taiwan, and Hong Kong;
- the external economic relations of these three economies;

Quantitative estimation of these impacts is especially encouraged.

Economists are invited to submit by **November 30, 2000** a draft of a suitable paper (or an extended abstract, 300-500 words) to *Anming Zhang*, *Department of Economics and Finance, City University of Hong Kong, Tat Chee Avenue, Hong Kong* <EFANMING@cityu.edu.hk>. Submission via e-mail is preferred, and should be accompanied by a cover letter stating mailing and e-mail addresses, phone and fax numbers, affiliation and academic rank. Since we are contemplating publishing selected papers, submission of papers that are not being considered for publication elsewhere is most welcome. If accepted, a completed paper for presentation will be due on **January 31, 2001**. For more information, please visit <http://faculty.washington.edu/karyiu/>

Participants should find their own resources for traveling, but partial travel subsidies may be available to those who are really in need. To apply, please state the amount needed and the least expensive round-trip airfare between your city and Hong Kong.
