Review of International Economics

Both theoretical and empirical papers will be considered. Some possible topics for this conference are: the economic causes and effects of the current crisis; the economics of crisis with special applications to these countries; the relationship between Asian growth and the crisis; the roles of and impacts on foreign trade, currency and macro-management, resource allocation, and policies of these countries. The editor of the *Review of International Economics* has expressed an interest in publishing a special issue for selected papers presented at the conference.

Please check the *Asian home page* for information about the crisis, including country reports, chronology, and reference lists of economics papers on Asian growth and the crisis:

<http://weber.u.washington.edu/~karyiu/>
